Notes on the CV template above

Heading Section - Ensure you include your legal names, a working email and phone number

Professional summary should be short but impactful. It should sell you to the person looking at your CV as a good fit for the role

Skills & Certifications - List the skills relevant to the role you are applying for. Do not include skills that you are not conversant with.

Work history - A short role description capturing your responsibilities, goals and achievements. List the experience you gained in each workplace and showcase your impact under achievements. Indicate the tools you used in each workplace. The tools listed in the skills and certifications section should appear in this section or the projects section to showcase where you implemented the skills.
